

I saw the article in the "you" magazine 14 sept 08, and my heart went out to all the sufferers because of this evil drug. my partner is 55 years old, but acts like a spoilt 5 year old because of his heavy cannabis/skunk use. im 39 yrs, have a 6yr old son, pt cleaner and pt mature student and sometimes taxi driver. my life is a constant hell because of his heavy skunk use. dont get me wrong, i used to smoke it myself, around 3 years ago, but gave it up because of the expense and the visible effect it had on his behaviour. he gets aggressive, abusive, verbally violent and vicious. i have fallen out of love with him. i begin to dread the sound of his key in the door. i am in contact with the police rose rose domestic violence unit, and i am fed up. he is turning my precious son against me, but i accept that in a way because of mistakes i made ie trying to be aggressive to retaliate. ive given up on the lovely, kind man i used to know. all i know is fear, game playing and vicious verbal abuse everyday. dont get me wrong, im no angel. i had a passionate 2 year affair with a polish friend of his, i do regret it, but i desperately needed the pure love, kindness, gentleness, true love and happiness, sweetness and cuddly affection after being abused and beaten for so long. i wouldnt let him go, he was 6ft 5in of pure muscle and very rich, but i had to. to be stuck with a nasty spiteful skunkhead who abuses me and tortures me everyday... love u forever, z. and i know z loves me, because he told me so, not so long ago. was it worth it..yes!! im trying to get on with my life, but its hard, but i perserve because of my son. this "weed, skunk" shit seems like a joke. but it does fuck with your head, i know. it doesnt just affect middle class fucked up teens, it affects a whole section of society. my heart goes out to all the parents in those horrid stories i read, perhaps once i would envy these middle class people, with their perfect lives, good jobs, little debt, flash holidays, loads good friends, social status, massive houses, limitless credit cards and flash cars, but it aint about material things. its about peace of mind, the happiness and hard work, the opportunity to see your kids grow, enjoy them and have a happy life, unlike the horrible boring hard-knock tortured suffering life i have had in the ghettos of birmingham and hackney. this vile man, i caught him rolling up big skunk spliffs while my poor son was sitting next to him. in his car, broad daylight, on a public road in a "red-hot" ghetto area. sickening old bastard!!!! yuk!! obviously, kids will experiment with shit, thats the human nature, the curiosity..but to screw up your whole life because of some skunk or crack is a goddam waste of time. i pray all those parents, rich or poor, who are suffering can find peace. the original rastafarian version of cannabis was to reach god, to attain a higher peace, not to be used as a pathetic excuse to rape some woman, or to wreck parent's houses or smear excrement up walls, to go on rebellious stealing sprees or to smoke crack. these spiteful little evil brats take their meanness to a new level. whether 19 yrs old or 55 years, the result is the same. i aint no angel, i smoke fags and drink neat vodka, but thats it. i try to be nice, but i know sometimes the demons get to your head and screw u up... but what goes round... this nasty drug should be stamped out, but the police in my area by the prison use skunk to "pacify the nasty natives!!!!" (heard from a copper's mouth, but i dont blame dem)!!! to maintain control of fucked up, vicious people. its not the first time the government and the authorities have used a substance to control wild people dem. remember the gin wars of the 1800s? its all a massive screw up. i dont judge others, i know it aint easy, rich or poor, ghetto or mansion. we all talk the same, same blood. and these brats should be made (forced) to do national service from 4am every day or to get up every damn day at 4am and go clean toilets, like i had to. that will work any "anti-parental" anger out of the little bastards, and make them appreciate what their poor hard-done parents have to go thru!!
